New Products

81-2338

81-2338 - EZ Claw Tensioner System, Versa Short Mount Kit

Electrical Connections / Air Products

- Contains (1) 25 lb. tensioner, (1) sling for 3-in-1 lines, (1) Versa Mount Bracket Short, and (1) International Adapter Bracket
- Fits International day cabs w/ L channel & International day cabs w/ airfoil using C channel
- This kit provides 11" of clearance off the back of the cab. This keeps air hoses and electrical cords from rubbing against the back of the cab and also keeps them adequately supported off the catwalk
- Mounting hardware included
- Keeps air lines and electrical cords off the deckplate / catwalk
- Prevents chafing and costly downtime due to parts failure
- Allows for 90° turns keeping hoses safe & secure

Vist Product Page

81-2339

81-2339 - EZ Claw Tensioner System, Center Post Mount Kit - 3-in-1 & Hydraulic w/ (3) Slings

Electrical Connections / Air Products

- Contains (1) Centre Post Mount (1) 25LB Universal Tensioner (1) 40LB Universal Tensioner (3) EZ Claw Slings
- Frame-mounted solution for suspending pneumatic, electric and hydraulic hoses in a central location behind the cab
- Reduces hose and line failure due to excessive, unsupported movements and/or rubbing
- The 72" post keeps lines a minimum 6" off the catwalk
- Supports up to 160 lbs. of hoses and cables
- Mounting hardware included
- Keeps air lines and electrical cords off the deckplate / catwalk
- Prevents chafing and costly downtime due to parts failure
- Allows for 90° turns keeping hoses safe & secure

Vist Product Page

81-2340 - EZ Claw Tensioner System, Yard Truck Kit with hose and cable holder

Electrical Connections / Air Products

- Contains (1) 25LB Universal Tensioner - right orientation and (1) hose and cable holder 3/8-3/8
- (1) 25 lb. tensioner and (1) hose & cable block for 3-in-1 lines
- Designed to support air hoses and electrical cords on yard hostlers
- Mounting hardware and installation instructions are included
- Keeps the hoses 6" above the catwalk and clear of the rear pass-through door
- Keeps air lines and electrical cords off the deckplate / catwalk
- Prevents chafing and costly downtime due to parts failure
- Allows for 90° turns keeping hoses safe & secure

Vist Product Page

81-2340

82-5904-200 - Portable Extension Cables - Type SJEOOW, Length 200'

Electrical Connections / Wire & Cable

- Black TPE Jacket provides premium oil resistance, sunlight, chemical, and water resistence
- Rated at 300 Volts, Meets UL and CSA specifications
- Cable is suitable for use in temperatures between -40°F and +221°F (-40°C to +105°C)
- Ideal for indoor and outdoor temporary power use, such as for portable industrial machinery, compressors, conveyors, and automated production equipment
- All extension cord is spooled

Vist Product Page

82-5904-200

82-5520-1000 - PVC Jacketed Brake Cable, Length 1000'

Electrical Connections / Wire & Cable

- Resists grease, oil, gasoline and acids
- Used for automotive, truck and marine applications
- Maximum temperature rating -40°C (-40°F) to 85°C (185°F)
- Internal wires meet SAE J1128 specifications
- Temperature ratings: 60°C (140°F)

Vist Product Page

82-5520-1000

83-8003-3200 - Split Flex Convoluted Tubing, Polyethylene Split Loom, Length 3200', Size 1/4"

Electrical Connections / Support & Protective

- Provides excellent chemical protection
- Allows flexible routing of wire, cable, hoses
- Protects hoses, wire, and cables from extreme heat and abrasion
- Helps reduce noise and protects wires from stones and other harmful debris
- Slit opening allows for easy installation of wires
- The slit snaps closed after installation to maintain its protective properties
- Applications: Automotive, Truck, Bus, Trailer, Marine, R.V., OE harness manufacturing

Vist Product Page

83-8003-3200

73480

73480 - Multi-Frequency and White Noise Alarms, White Noise Backup Alarm, Multi Frequency, 97dB

Warning & Hazard / Audible Devices

- The "White Noise" function reduces noise pollution (ideal for use in residential areas) but still provides excellent and locatable sound in the danger zones behind vehicles
- Improves worker safety with its acoustically friendly and locatable sound, reducing confusion and improving audibility
- Helps to eliminate noise complaints at job sites, delivering compliance to municipal and regional noise regulations
- The rugged black housing is made from durable, glass-filled nylon, and is epoxy-sealed to protect against dust, moisture, and vibration
- The 73480 mounts in a standard 4" grommet, providing a fast and easy installation that provides added protection against damage from debris

Vist Product Page

82-5709-P500

82-5709-P500 - Battery Cables - Type SGR, Length 500'

Electrical Connections / Battery Connectors & Cables

- Rated @ 60V
- 100% Copper Cable
- All Battery Cable is spooled
- Meets all SAE code J1127 specifications

Vist Product Page

82-6709-P500

82-6709-P500 - Battery Cables - Type SGR, Length 500'

Electrical Connections / Battery Connectors & Cables

- Rated @ 60V
- 100% Copper Cable
- All Battery Cable is spooled
- Meets all SAE code J1127 specifications

Vist Product Page

82-5625

82-5625 - Trailer Cable, PVC, Length 250'

Electrical Connections / Wire & Cable

- Used for wiring trucks and trailers; Jacket provides protection from weather and abrasive materials

Vist Product Page

83-8038-3

83-8038-3 - Split Flex Convoluted Tubing, Nylon Split Loom, 250' Length, Size 1 1/4"

Electrical Connections / Support & Protective

- Provides excellent chemical protection
- Allows flexible routing of wire, cable, hoses
- Protects hoses, wire, and cables from extreme heat and abrasion
- Helps reduce noise and protects wires from stones and other harmful debris
- Slit opening allows for easy installation of wires
- The slit snaps closed after installation to maintain its protective properties
- Applications: Automotive, Truck, Bus, Trailer, Marine, R.V., OE harness manufacturing

Vist Product Page

83-8001-3-R - Split Flex Convoluted Tubing, Polyethylene Split Loom, Length 500', Size 1/2"

Electrical Connections / Support & Protective

- Provides excellent chemical protection
- Allows flexible routing of wire, cable, hoses
- Protects hoses, wire, and cables from extreme heat and abrasion
- Helps reduce noise and protects wires from stones and other harmful debris
- Slit opening allows for easy installation of wires
- The slit snaps closed after installation to maintain its protective properties
- Applications: Automotive, Truck, Bus, Trailer, Marine, R.V., OE harness manufacturing

83-8001-3-R

87-8514 - (GPT) General Purpose Thermoplastic Wire, Length 500' Pink

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

87-8514

Vist Product Page

87-8503 - (GPT) General Purpose Thermoplastic Wire, Length 500' Gray

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

87-8503

Vist Product Page

87-8512 - (GPT) General Purpose Thermoplastic Wire, Length 500' Orange

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

87-8512

Vist Product Page

87-8513 - (GPT) General Purpose Thermoplastic Wire, Length 500' Purple

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

87-8513

Vist Product Page

88-9111 - (GPT) General Purpose Thermoplastic Wire, Length 1000' Yellow

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

88-9111

Vist Product Page

88-9110 - (GPT) General Purpose Thermoplastic Wire, Length 1000' Blue

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

88-9110

Vist Product Page

88-9107 - (GPT) General Purpose Thermoplastic Wire, Length 1000' White

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

88-9107

Vist Product Page

88-9101 - (GPT) General Purpose Thermoplastic Wire, Length 1000' Brown

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

88-9101

Vist Product Page

88-9106 - (GPT) General Purpose Thermoplastic Wire, Length 1000' Green

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

88-9106

Vist Product Page

88-9102 - (GPT) General Purpose Thermoplastic Wire, Length 1000' Black

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

88-9102

Vist Product Page

88-9100 - (GPT) General Purpose Thermoplastic Wire, Length 1000' Red

Electrical Connections / Wire & Cable

- Temperature rating -40°C (-40°F) to 80°C (176°F)
- Available in 25', 100' spools, 1000' also available
- Single conductor PVC jacket resists grease, oil, gasoline, acids & other abrasive materials
- Meets SAE code J1128 specifications
- Used for automotive, truck & marine applications

54812 - Heated All-Weather Stop Tail Turn Lights, 6" Heated All-Weather Oval With Backup Hardshell

Signal Lighting / Stop Tail Turn Lights

- Decrease downtime and accelerate "walk-arounds" by reducing the need for drivers to scrape snow and ice from lights
- Keep lights free from snow and ice while driving in wintry conditions allowing you to stay visible, safe, and legally compliant with unobstructed lights
- Advanced thermal regulation technology monitors lens temperature to prevent overheating and reduce power consumption
- When the temperature of the lamp falls below 40 degrees, Grote's Heated 4-in-1 All-Weather STT Lights automatically begin transferring heat through the lens, actively preventing ice and snow buildup
- Bulk packs available to support retro-fit programs (16 pcs per carton)

73430

73430 - Multi-Frequency and White Noise Alarms, White Noise Backup Alarm, Multi Frequency, Self Adjusting, 87-107dB

Warning & Hazard / Audible Devices

- The "White Noise" function reduces noise pollution (ideal for use in residential areas) while still providing excellent and locatable sound in the danger zones behind vehicles
- Improves worker safety with its acoustically friendly and locatable sound, reducing confusion and improving audibility
- Helps to eliminate noise complaints at job sites, delivering compliance to municipal and regional noise regulations
- The rugged and familiar blue housing features glass-filled nylon and a durable urethane potting material to withstand challenging work environments
- Grote Alarms feature a standard mounting configuration for quick installations, retrofits, and replacements, and the blunt cut wires make installation simple and straightforward
- Grote's self-adjusting alarms detect ambient noise in the work environment and can get louder when necessary to ensure a safe work zone

Vist Product Page

73020

73020 - Specialty Backup Alarms, Dual Alert Smart Alarm, 87dB to 112dB, 12-24V

Warning & Hazard / Audible Devices

- The primary alarm tone automatically adjusts volume from 87 to 112 dB based on environmental noise levels, ensuring it's heard clearly as a back-up alarm in any setting
- A unique secondary warble tone provides an additional, attention-grabbing sound, ideal for signaling other safety hazards like moving liftgates or equipment in motion
- Built to last, with glass-filled nylon housings for added strength and resilience in demanding environments
- Designed with universal mounting options and a straightforward 3-wire installation, making it adaptable to various equipment types
- Engineered with a rear-facing design to shield the speaker from the elements and hazards like dust and moisture, enhancing durability and ensuring reliable performance over time
- Rugged construction with glass-filled nylon housings
- Offer distinct tones and alert allowing equipment to provide audible warnings for different scenarios
- Universal mounting including grommet mounted products
- Available in a range of decibel output levels to fit wide variety of application needs
