**BE VISIBLE AND BE SAFE**

Grote's LED auxiliary lamps are ideal for protecting vehicles in tight spaces. Made of flexible rubber, and equipped with LED technology, this lamp helps drivers negotiate tight passages, and helps your vehicle be more visible to other drivers.

**FEATURES & BENEFITS**

- Grote's LED auxiliary lamps are ideal for protecting vehicles in tight spaces
- Featuring reliable LED technology, this lamp helps drivers negotiate tight passages, and helps your vehicle be more visible to other drivers
- The durable and flexible rubber mounting arm ensures a long life and reduces the likelihood of impact damage
- The small mounting footprint allows it to be mounted securely on most surfaces
- Kits include a 24" jumper cable to easily connect to Grote's UBS harness system with standard bullet terminals
- "Left" (LH) and "Right" (RH) kits provide rear-facing red and forward-facing amber LEDs
