

LOW TEMPERATURE TRAILER CABLE

FROM GROTE

REMAINS FLEXIBLE IN EXTREME TEMPERATURES

Extreme cold can affect the flexibility of trailer cable and make repairs and installations very difficult. Engineered with this in mind, Grote's **Low Temperature Trailer Cable** maintains its flexibility in freezing conditions. It offers one of the widest operating ranges in the industry; -85°F to 221°F (-65°C to 105°C). Available in configurations to meet a wide variety of applications, it is the perfect choice for harsh and cold environments.
