REDUCE NOISE POLLUTION WITHOUT COMPROMISING SAFETY

Grote’s White Noise Backup Alarms are designed to limit noise pollution. This ensures that individuals near reversing vehicles receive clear warnings while maintaining lower overall noise levels. Our seven distinct alarms can provide a white noise solution tailored to any vehicle or equipment safety need.

FEATURES & BENEFITS

- White Noise alarms reduce noise pollution (ideal for use in residential areas) but still provide excellent and locatable sound in the danger zones behind vehicles
- Improves worker safety with its acoustically friendly and locatable sound, reducing confusion and improving audibility
- Helps to eliminate noise complaints at job sites, and delivers compliance to municipal and regional noise regulations
- Grote has you covered! Choose the mounting style and output volume that is right for your application
