GROTE WARNING AND HAZARD LIGHTING

Ask your Grote Sales Representative about our wide range of warning and hazard lighting.

A family's multi-generational commitment to the vehicle and transportation lighting industry.

William D. Grote, Founder, Grote Industries, 1901

the lighting industry in a different context from those who simply find themselves working in the lighting business.

Grote Industries is a family-owned business, just like many of the distributors, fleets, and OEMs we serve. Like a number of our customers, we're proud of our family's multi-generational commitment to the transportation industry that reaches back more than a century. We're thankful for the visionary legacy of our predecessors and because of it, we can't help but see the past, present and future of

Founded on the principles of solid customer relationships, continuous innovation and exceptional product performance, Grote is committed to propelling itself and its industry, forward, with inventive products and challenging ideas.

As a corporation, our family's culture extends to our entire organization, around the globe and particularly to our customer-facing staff. Grote is not sales oriented, we're not engineering-oriented – we're relationship-oriented and we're working hard every day to uphold our reputation and continue to earn your trust.

The Grote family has played a prominent role in shaping the vehicle lighting industry. We are deeply and personally engaged today, as we will be in the future, to make the kind of brave choices and bold decisions that will help move the vehicle lighting industry ahead and into an even brighter tomorrow.
